

Historic Restorations

K&G Artisan Builders, Inc. dba

341 E. Liberty Street
Lancaster, PA 17602

Company Overview

Historic Restorations is a small disadvantaged business with an office and architectural mill shop based in Lancaster, Pennsylvania. We specialize in older buildings in the Mid-Atlantic region and our artisan craftsmen bring one of a kind details to our projects with our custom millwork.

In addition to manufacturing custom millwork, we can provide artisan craftsmen onsite to install what we manufacture - creating a one stop solution for the cabinetry and millwork aspects of a project.

Jonathan Keperling
President & Artisan Craftsman

Specialized in traditional woodworking since 1998

Continuing education: Traditional Building Conference, International Preservation Trades Workshop, and the Business Side of Preservation

Renovation, Repair, and Painting Certified Renovator #139368 and OSHA Safety Training Certified

Charles Groshong
Vice President & Artisan Craftsman

Over 30 years of experience in construction with the specialization in traditional woodworking

Continuing education: Traditional Building Conference, International Preservation Trades Workshop

Historic Restorations also works to further the traditional trades and historical preservation as a featured speaker at several trade shows and historic societies.

Custom Millwork Shop

Located in Lancaster, PA, our 7,000 SF custom millwork shop uses traditional joinery and a combination of modern machinery and hand tools to fabricate, restore, and repair wood windows, doors, and architectural millwork.

Our custom millwork shop doesn't just provide artisan craftsmanship materials, it's also a way to save money on prevailing wage projects by allowing the majority of work to be completed off-site when we perform the installation.

Capabilities

- Restoration and fabrication of true divided lite windows
- Restoration and fabrication of solid wood doors in 18th and 19th Century styles
- Mouldings to match a period style or existing trim (interior and exterior)
- Fabrication of wood siding and flooring
- Custom cabinetry
- Replication of turnings
- Repair of architectural details with epoxy and solid wood dutchman repairs
- Whole building restoration
18th, 19th, and early 20th Century structures including post and beam, stone, log, and brick
- Sympathetic Additions
To compliment 18th, 19th, & early 20th Century buildings while adding modern functionality
